
UA 200

Semi Auto Urine Strip Analyser

UA 200

Semi Auto Urine Strip Analyser

UA 200 Urine Analyser is a high – precision, intelligent instrument which is developed based on modern optics, electronics, computer science and other advanced technologies for clinical testing of urine. It has advantages of easy and quick operation, accurate result and high reproducibility.

Features

- High – luminance and white LED, ensures long life and stability.
- Big LCD display for user convenience.
- User – friendly interface to achieve effective man – machine conversation.
- International unit, conventional unit and symbol system are optional for result display & print.

Technical Specifications

Analyser Type	Semi-Automatic
Methodology	Reflectance Photometry
Detection	Photosensitive Diode
Display	2.4" color LCD
Data Storage	500 sample data which can be freely checked by test date and sample number
Strip Incubation Time	1 minute
Communication Interface	Micro USB interface, Bluetooth wireless communication (optional Bluetooth)
Working Mode	One – Step
Working Environment	Temperature 10°C ~ 30°C, Humidity ≤80%
Reproducibility	CV ≤ 1%
Power Supply	DC 5V, built – in rechargeable lithium battery
Dimension	126mm (L) x 73.5mm (W) x 30mm (H)
Weight	About 0.18Kg
